25X1 15. [] At the request of Senator Henry M. Jackson, met with Attorney Paul Jackson in the presence of the Senator's staff man, Charles Flower. Senator Jackson sat in on some of this which involves serious injuries to a pilot, William Gould, who was in the employ of Bird and Sons in Laos. After looking at Jackson's material, I asked if he had ever been in touch with AID which had contracts with Bird and Sons, looking at the possibility of some type of coverage under Federal law. Attorney Jackson was not able to answer the question. I also asked him if he had ever been in touch with the Bureau of Employees' Compensation which would administer Federal laws, if applicable. Jackson did not know this either. This fitted nicely with the general position which Senator Jackson was taking in any event in response to the attorney's request for relief by way of private legislation which was to the effect that they would have to ascertain that all administrative action and legal actions authorized by law had been exhausted. I specifically indicated that any attempts to cloud the issue by the security of the Agency in the area served no purpose since the deposition of Bird and Sons indicated that existing contracts were with AID. With that, appointments were made for Attorney Jackson to see AID people. I promised to be back in touch with Senator Jackson if we developed any further facts on the case.

25X1 16. 12. [Redacted] Miss Posey, in the office of Congressman John J. Rhodes (R., Ariz.), called requesting a copy of the March 1967 issue of a two page publication News from Ukraine published by the Association for Cultural Relations with Ukraine's Abroad. She advised that the FBI Field Office in their district had indicated that the Agency should be contacted. Miss Posey also advised that the Library of Congress had been unable to identify this publication. I said I would be back in touch as soon as we could.
